Professional Products Positioning

STYLISTIC

The STYLISTIC ST Series is thin, approximatly A4 in size, only 1.6 kg and relpaces your need for paper and clipboard. Boasting a robust, high-tech design, it offers a 12.1-inch display making it ideal for working while standing or walking, indoors or outside. The Intel® Centrino® Core 2 Duo processor means you can work for a whole business day. And outstanding connectivity with embedded broadband access, WLAN and Bluetooth means you can get in a full day of work without having to return to the office.

AMILO Mobile & LIFEBOOK

Our notebooks make you feel good, and not just when you are travelling. Genuine mobility, high performance, top quality, reliability and a stylish design make our complete AMILO Mobile and LIFEBOOK Series unique. They also demonstrate that state-of-the-art technology can also be a visual pleasure. These high performance, convenient professional notebooks can easily be adapted to your specified requirements and are the perfect replacement for a desktop.

FUTRO

The FUTRO product line of smart, expandable thin clients is the ideal solution for server-based networks, particularly in terms of availability and data security. The user can neither access the operating system nor store data on the smart terminal.

ESPRIMO

Our PCs provide pure performance while balancing economic and environmental considerations. ESPRIMO PCs feature state-of-the-art technology from AMD and Intel® and are the perfect basis for productive working environments. They are quiet and cool with intelligent ergonomic designs, perfect manageability and security features. To make them as environmentally aware as possible, they are built with especially selected materials to minimize the impact on the environment.

CELSIUS

Computing power, memory space, graphics systems, expansion possibilities – even the most powerful of standard PCs are quick to reach their limits outside classic office and communication applications. Application fields such as simulation, animation, construction, and digital content creation require systems that offer maximum performance on all levels: CELSIUS workstations.

Displays & Peripherals

Positioned in three segments the Fujitsu displays offer the right model for every desire - from multifunctional all-rounders, advanced displays, which are highly ergonomic and comfortable, also for entertainment, and the superior class for highest demands in terms of performance, graphics and multimedia.

Input devices for every desire: wired and wireless, optical and laser technology, all according to latest ergonomix standards.

.

Professional Products Positioning

PRIMERGY

PRIMERGY is based on the standard architecture for good reason. Due to their high level of standardization, x86/EM64T and Dual-Core / Quad-Core servers deliver the best price/performance ratio. The Fujitsu extensive product range, coupled with more than 20 years of experience in the IT market, means that we can build reliable and flexible IT infrastructures for our customers. PRIMERGY servers are the ideal choice for ensuring greater competitiveness and success in modern e-business environments.

SPARC Enterprise

The new Fujitsu SPARC® Enterprise servers T5140 and T5240 – the first servers using the new UltraSPARC T2 Plus chip-multithreading (CMT) processor - are setting new standards in the market for network centric computing, energy efficiency and compute density, providing the ideal platform particularly for larger web and applica-tion tier services and for online transaction processing and technical workloads. This new models extend the existing CMT platform to 2-socket multiprocessor systems. Built-in, no-cost virtualization capabilities in the servers also enable customers to easily maximize system utilization, helping to lower the cost of delivering new IT services.

PRIMEQUEST

PRIMEQUEST servers are mission critical IA servers which enable customers to realize the economic benefits and flexibility of Linux and Windows industry standards while preserving all the attributes for mission critical datacenter services.

Storage

As part of its "Dynamic IT for storage" concept, Fujitsu offers complete storage solutions consisting of the best components available from a single source. Close partnerships and collaboration with leading manufacturers of storage products means that the world's leading technology is available for every segment of the storage market. And if the market does not have any appropriate solutions, Fujitsu will invest in developing its own specific storage systems.

Windows®. Life without Walls™. Fujitsu recommends Windows 7.

Positioning Tablet PC

STYLISTIC ST6012

The STYLISTIC ST6012 Series will make you more productive in a variety of mobile situations, whether you're on your way to an appointment, giving a presentation or taking notes with "electronic ink" during a meeting.
The new chipset and the advantages its Display make it the ultimative working tool for every purpose.
It's light, thin and robust and enables a convenient working on every location - indoor and outdoor

LIFEBOOK T5010

The LIFEBOOK T4400 and LIFEBOOK T5010 series are slim lightweight convertibles including a modular bay. The brilliant 12.1-inch respectively 13.3-inch active-digitizer TFT screen ensures exceptional image quality. Enjoy pen-based computing wireless with embedded mobile broadband access and the freedom to work all day long independent of any power supply.

LIFEBOOK T1010

The LIFEBOOK T1010 stands for stylish tablet functionality featuring individual design aspects and dedicated software for students and kids at a reasonable and competitive price.

STYLISTIC Accessories

Extend your STYLISTIC tablet PC to your needs. More convenience for your business trips and more functionality enabling easy working.
Fujitsu offers a vast range of accessories for your STYLISTIC ST Series:
docking unit, power supply devices, different storage media and special cases that provide maximum protection while transportation.

Windows®. Life without Walls™. Fujitsu recommends Windows 7.

STYLISTIC ST6012 Series — Data Sheets: http://ts.fujitsu.com/stylistic

The STYLISTIC ST6012 Series will make you more productive in a variety of mobile situations, whether you're on your way to an appointment, giving a presentation or taking notes with "electronic ink" during a meeting.
It's specially designed for working while standing or walking.
It's light, thin and robust. Its brilliant display enables a convenient working on every location - indoor and outdoor.
Customers all over the world like sales professionals, service technicians, surveyors, inspectors or doctors are persuaded of the natural pen interface.
The smart worker will enjoy the outstanding connectivity of the ultimate tablet PC – embedded mobile broadband access (3G/UMTS), WLAN and Bluetooth.

Positioning Notebooks

Mini Notebooks

Enjoy your mobile lifestyle with a small and lightweight mini notebook, whenever and wherever you are.

LIFEBOOK A Series

The LIFEBOOK A530 provides maximum performance and due to its solid design unique reliability combined with high class design. It is perfectly qualified for daily standard applications like surfing the internet, email communication, picture editing, chatting or video telephony.

AMILO P Series

The AMILO P Series combines versatile performance, great technology and a fascinating design. The perfect all-round notebooks.

AMILO L Series

The AMILO L Series is great for daily home-office, Internet and e-mails. It is an affordable solution for those, who are looking for an entrance to the digital world.

AMILO X Series

Experience impressive entertainment, exciting new technologies, inspiring innovations and features unified in the AMILO X series.

AMILO S Series

Always on the move? Like to travel light? Not much room to spare? It combines extremely small dimension with powerful performance - and ingenious design - for productive work and the best in entertainment, wherever you are.

ESPRIMO Mobile U Series

The small, solid 12.1-inch WXGA display notebook ESPRIMO Mobile U Series with state-of-the-art Intel® Centrino® 2 processor technology enables you to access all your business data wherever you may be. It is the perfect combination: small in size, long battery life and unlimited connectivity

ESPRIMO Mobile M Series

The solid 14.1-inch mainstream notebook ESPRIMO Mobile M Series with its state-of-the-art Intel® Centrino® 2 processor technology meets the increasing requirements for unlimited connectivity. It helps you to be productive at work, wherever you may be.

ESPRIMO Mobile D Series

The ESPRIMO Mobile D9510 is ready for any challenge thanks to its state-of-the-art Intel® Centrino® 2 processor technology. The 15.4-inch display enable ergonomic working, whether you are in the office or travelling. Connectivity is ensured via a large number of interfaces and optional embedded mobile broadband (3G/UMTS).

ESPRIMO Mobile X Series

The ESPRIMO Mobile X Series is a solid alternative to the Desktop PC and offers top mobile performance. This professional notebook has a brilliant 15.4-inch WXGA+ or WSXGA+ display and its modular bay provides the option of a second battery. Connectivity is ensured via a large number of interfaces and optional embedded mobile broadband (3G/UMTS).

LIFEBOOK E Series

The LIFEBOOK E Series always follows a simple philosophy: only the best will do. Top notch performance with only 2.7 kg makes this notebook as one of the lightest in its class. The comprehensive security features, separate SmartCard reader, TPM and Fingerprint modules make your sensible data safe and secure – anytime, anywhere.
Take advantage of the growing network of wireless working and catch up emails where ever you are via optional embedded UMTS.

LIFEBOOK S Series

The LIFEBOOK S Series gives professional users the optimum combination of performance, modularity and flexibility: the functionality and ease of use of a desktop in a slimline, lightweight package. The integrated modem, network adapter, optional Bluetooth and wireless LAN are complemented by a multifunctional bay. The latest Intel Core 2Duo technology provide you long battery life away from the power socket.

LIFEBOOK P Series

The LIFEBOOK P Series fits in any bag - meeting the most demanding airport restrictions. At only 1.3 kg this lightweight combines superior style with exceptional performance and state-of-the-art connectivity, including embedded mobile broadband access and excellent communications ability. Thanks to video conferencing support with the integrated ConfCamera, this 12.1-inch screen beauty is truly a maximum. It provides all standard interfaces, and tops it off with a exeptional long battery run time. The integrated EcoButton extends the battery life even further. In short, true mobility becomes reality.

LIFEBOOK T Series

You are looking for an ultra-portable notebook with the latest technology but also want to profit from the pen functionality of a Tablet PC. Have a look on the LIFEBOOK T Series and you will be fascinated.
The LIFEBOOK T Series is a convertible notebook which offers you pen enabled design in all modes. And just flip over the screen and it converts into a Tablet PC.

LIFEBOOK P Series

Getting bigger, staying small - the LIFEBOOK P Series features powerful notebooks and ultra light convertible Tablet PCs in one unit. Rotate the brilliant 8.9 inch display 360 to share your ideas or flip it over to convert your notebook into a slate Tablet PC.
High performance and long battery life is not a conflict. The LIFEBOOK P Series is your perfect companion whether you are driving by car, train or airplane.

LIFEBOOK E780

Data Sheets: http://ts.fujitsu.com/LIFEBOOK

The simple philosophy behind LIFEBOOK E780: only the best is good enough. It is the ideal choice for performance-oriented users with state-of-the-art Intel® Core™ with vPro™ technology and optional NVIDIA® graphics card ensuring brilliant graphics and best performance. This 15.6-inch notebook supporting HD or HD+ display with LED backlight offers better viewing while consuming less energy for a longer battery runtime. Thanks to variety of interfaces, you can connect the LIFEBOOK E780 just in a few seconds to all your devices. Maximum flexibility is ensured thanks to the modular bay which can take a 2nd battery allowing a runtime of up to 11 hours

LIFEBOOK P770

Data Sheets: http://ts.fujitsu.com/LIFEBOOK

The LIFEBOOK P770 is a small, lightweight and high performance notebook that combines exceptional functionality with leading edge technology. P770 has a super small footprint weighing only 1.4 kg, including hard disk and DVDRW drive. Features include HDMI for best audio/image quality, WLAN and Bluetooth, optional 3G/UMTS, an integrated 2 megapixel webcam and long battery runtime of 8+ hours. The new Intel® Core™ i7-620UM processor used in the P770 guarantees even better performance and at the same time is more energy-efficient.

Positioning FUTRO thin clients

FUTRO S

This small but powerful and expandable thin client is your ideal client for server-based computing. No matter if used with RDP or ICA protocol, as thin client for Windows terminal services or as Java based network terminal, FUTRO S Series always helps you to minimize the Total Cost of Owernership. Low power consumption, no fans and rotating drives turn the FUTRO S Series into a very reliable and silent thin client.

FUTRO S

Data Sheets: http://ts.fujitsu.com/futro

Why take a fully featured PC for server based computing, when you can have everything you need in a reliable small form factor thin client?
The FUTRO S Series is ideally suited for Windows Terminal Server computing. The server exeutes the applications, the screen is displayed on the client. Your data is saved secure on the server and is therefore protected against loss.
Also the operating system is stored secure on a flash memory and safe from unauthorized changes due to a write protected file system. Smart administration tools help to update the client easily. Without fan and rotating drives, the FUTRO S Series is reliable, fail-safe and silent.
All that turns the FUTRO S Series into a minimizer of Total Cost of Ownership.

Positioning ESPRIMO

ESPRIMO P2xxx series

The ESPRIMO P2xxx series is designed for price-driven customers and is pre-configured with up-to-date standard features. These systems can handle any office requirement, particularly those typical to small and mid-sized enterprises. The ESPRIMO Edition line is instantly available at your dealer.

ESPRIMO 3xxx Series

The ESPRIMO 3xxx Series is the right choice for large enterprises requiring up-to-date standard features. Freely configurable, with proven technology and an extended lifecycle of up to 12 months, these PCs are the perfect choice for cost-driven projects.

ESPRIMO C

The ESPRIMO C Green PC is your perfect partner for smallest space. The ultra small form factor PC combines latest technology with environmentally conscious product design to minimize impact on the environment. With its silent product concept and service friendly cabinet, the ESPRIMO C offers best working conditions.

ESPRIMO E

Put your performace on the desk. The ESPRIMO E Green PC is a small form factor PC setting new desktop standards. ESPRIMO E offers highly reliable computing power for every business demands.Due to latest technologies, highest ergonomic and silent product design the ESPRIMO E Green PC is for every costumer who requires high computing power. It can be positioned either horizontally or vertically.

ESPRIMO P

Your every day business performer. The ESPRIMO P Green PC microtower offers highest performance and best expandability. With various system modifications, the ESPRIMO P is tailored to every business use to reasonable value. Working with ESPRIMO P is stress free. It is ergonomic, silent and reliable.

ESPRIMO Q

The ESPRIMO Q Series opens a new chapter on performance, size and design.
With its extremely small and stylish design, the new Mini PC satisfies a so far unanswered business need: PC becomes fashionable.
Add an eye catcher to your desk.

Windows®. Life without Walls™. Fujitsu recommends Windows 7

ESPRIMO C **Data Sheets: http://ts.fujitsu.com/esprimo**

Don't let yourself be fooled from the size of the ESPRIMO C. Although it's an ultra small form factor system presenting latest chipset and processor technologies and offers Multibay functionality like a notebook. Make profit from the small form factor design because you need less space.
ESPRIMO PCs are built with specially selected material to minimize impact on the environment. Production and selection of material are optimized to the aspect of environmental consciousness. Development, production, transportation and recycling are aligned to strong internal environmental directives.
Working with the ESPRIMO C is stress-free. It is small, ergonomic, silent and reliable. It is easy to administrate and secure. In short, this highly reliable premium PC is particularly tailor-made to your business demands.

ESPRIMO Q **Data Sheets: http://ts.fujitsu.com/esprimo**

The ESPRIMO Q Series opens a new chapter on performance, size and design.
With its extremely small and stylish design, the Mini PC satisfies a so far unanswered business need: PC becomes fashionable. Powered by the latest Intel® Mobile Technology, the ESPRIMO Q Series fulfills the requirements of a fully-flegded PC.
Don't buy expandability you never use and gain more space on your desk. You'll profit from its low energy consumption, as well as from its whisper silent noise level.
Add an eye catcher to your desk.

Positioning CELSIUS workstations

CELSIUS H Series

CELSIUS H Series. Powerful mobile workstation. If you run power-hungry 3D applications that demand no compromise on the graphics side, you'll appreciate the CELSIUS H. The system offers the power of a full-fledged workstation: Editing 3D OpenGL graphics in real time, running computer simulations and computing multimedia animations wherever you are.

CELSIUS W Series

CELSIUS W Series. High-End PC / Entry-Level workstation
If you need more power and more expandability than a desktop PC can offer, choose the entry-level workstation CELSIUS W Series. The CELSIUS W Series offers workstation performance - in combination with fastest generation of processors, chipsets and graphic cards.

CELSIUS M Series

CELSIUS M Series. Mid-range workstation.
Do you need more power, more memory, more data security, and more expandability than a conventional PC can offer? Then choose the mid-range workstation CELSIUS M Series. CELSIUS workstations are equipped with the very latest technology and system components to deliver high-end performance. CELSIUS are certified for a huge variety of software applications.

CELSIUS R Series

CELSIUS R Series. High-end workstation.
You need a powerful, dual-processor workstation and want to choose from a large range of graphics subsystems. The CELSIUS R Series is ready for all challenges. What is more, the CELSIUS R Series offers great expandability. Latest technology combined with top performance components makes this the optimum hardware choice for power hungry applications.

CELSIUS V Series

CELSIUS V Series. 64-bit workstation.
You need a powerful workstation for memory demanding applications? With support for up to two AMD Opteron™ processors and up to 64 GB main memory, the CELSIUS V Series provides maximum system performance when it is really needed. The wide range of professional 3D graphics, the large cabinet with room for additional components and ISV Software certifications are the ideal conditions for compute-intensive and multi-processor-optimized workstation applications.

Windows®. Life without Walls™. Fujitsu recommends Windows 7

CELSIUS W480 — Data Sheets: http://ts.fujitsu.com/celsius

The CELSIUS W series is the versatile all-round workstation for price-conscious users. Offering entry workstation performance, the CELSIUS W480 is your choice for business segments, such as computer aided design, digital content creation and finance. The ISV certification process enables workstation users to run their preferred applications with maximum system stability.

Positioning Displays

P Line

Superior Displays - P Line and XL Line
A feast for your eyes and a pleasure to use for work or multimedia:
- Ultra wide viewing angle and outstanding color performance
- 0.0 watt standby (P Line)
- Maximum connectivity
- Most advanced technical features

XL Line

B Line

Advanced Displays - B Line and SL Line
Efficiency for intensive office or entertainment usage:
- Optimum ergonomics (B Line) with height adjust, tilt, swivel and on standard formats as well rotation
- Energy efficient: power save panel EPA 5.0, ECO button, EPEAT Silver
- Ultra high contrast (SL Line)
- High-flexible connectivity: e.g. 2 x HDMI (on selected models), DVI (HDCP) for wide screen displays

SL Line

A/E Line

All-round Displays - A/E Line and L Line
Enter the world of LCD displays at an affordable price:
- Ergonomic or lifestyle design
- TCO'03 or TCO Displays 5.0
- Energy efficient - EPA 5.0, EPEAT Silver

L Line

Displays

Data Sheets: http://ts.fujitsu.com/display

P Line
- 0-Watt power save mode*
- Auto Brightness Control*
- UVA (Ultra Wide Viewing Angle)*
- Enhanced ergonomic height adjust stand
- HDMI for wide screen models
- Ready for Manageability
- 5th generation models in new design language

*: on sleected models

XL Line
- Advanced contrast ratio (ACR) up to 20,000:1
- ECO control button
- Video inputs HDMI, DVI and analog

* featured on selected models

B Line
- Energy saving solutions (as of Summer 2009)
  - Cut energy cost by half (versus Energy Star 4.1)
  - ECO operation mode for Energy Star 5.0
  - ECO button - direct access to ECO mode
- Flexible ergonomic stand
- Height Adjust, Tilt, Swivel, Rotation*
- DVI-D and analog interface
- Manageability

SL Line
- High ACR up to 10,000:1
- 2 x HDMI*, DVI*, analog interface
- Glossy black lifestyle design
- Full HD 1080P support*
- 16:9 ideal video format*
- Headphone jack*

A Line
- Energy saving solutions (as of Autumn 2009)
- Energy Star 5.0
- Tilt stand
- Analog interface
- Ergonomic Design

L Line
- Extra high ACR up to 10,000:1*
- 16:9* ideal video format
- Fast 5 ms response time
- Lifetime extender
- Theme Mode
- Glossy black lifestyle design

Positioning Input Devices & Security devices

Keyboards & Security

The keyboard is the most important interface between humans and the computer. Our keyboards are designed according to the latest ergonomic development and the non-abrasive laser inscription lasts a lifetime. The security keyboards conform to current market requirements and offer an perfect platform for security applications.

Keyboards & mice

Please look for your favourite keyboard amongst a vast choice of different types. We have the right keyboard for you, no matter if you only need basic functionality or enhanced business typing. For office and a long days work, our Premium Line keyboards are the right ones.

Choose the perfect mouse for your environment: small when on the road, regular sizes for the desk, left and right hand usage, wired or unwired, four way scroll function, high-precise optical or laser technology - whatever you desire!

Security devices

To serve and protect - we take care. There is no choice than our security devices if you want to protect your valuable data from beeing stolen, changed or copied. SmartCard technology helps to protect your data. Accompanying software completes the functionality of your SmartCard.

Input devices and Security — Data Sheets: http://ts.fujitsu.com/keyboards

Keyboards
A keyboard is the most important interface between user and computer. All our keyboards are designed to do the job. Reliable, effective and persevering. But what's more: they come in attractive and stylish designs to highlight every working place. There is a choice between wired and wireless keyboards, and also of features like e.g. quick touch buttons or 2 additional USB Ports.

Mice
Mice for every working or private environment. Great choice in different sizes, with or without cable, high precision technology, ergonomic and easy to use.

Security devices
Data are often inestimable worths. But they can be deleted, copied and changed in a short time by anyone. With Fujitsu security devices the access to mobile and stationary systems is effectively secured**.**

Positioning PRIMERGY Economy Servers

PRIMERGY Econel 100 S2

PRIMERGY Econel servers are the best choice when funds are limited but server availability, performance, and uncomplicated operation are important. PRIMERGY Econel brings server performance at a price rivaling that of a PC!
PRIMERGY Econel servers ensure data security through ECC memory protection and integrated RAID disk mirroring. With its particularly low noise levels, the PRIMERGY Econel 100 S2 is the perfect system for any office environment.

Positioning PRIMERGY Tower Servers

PRIMERGY TX100 S1

PRIMERGY TX120

PRIMERGY TX150 S6

PRIMERGY TX200 S4

PRIMERGY TX300 S4

PRIMERGY TX industry standard tower servers: efficient, rock solid, record-breaking performance. PRIMERGY TX servers benefit from over 20 years pioneering work in the field of Green IT. That is how TX servers reach industry – leading performance per watt ratios, lowering the environmental impact and running costs. TX servers can easily be managed locally or remotely via the PRIMERGY ServerView Suite, saving IT admin costs. That's efficient performance. Our made-to-measure service packages take care of your system every step of the way. Rest assured, PRIMERGY TX servers are put through 5000 boot cycles - that's rock solid performance. PRIMERGY TX servers are flexible systems capable of using up to two processors and up to 20 hard disks. Tower to rack mounting kits are available to move to a consolidated rack infrastructure. TX servers have a tradition of setting record-breaking performance levels. So, whether you use them as tower or rack servers, for file, print or application purposes, you will benefit from record-breaking performance. PRIMERGY TX: a tower of strength.

PRIMERGY TX100 S1&S2 — Data Sheets: http://ts.fujitsu.com/primergy

The PRIMERGY TX100 S1 & S2 are your entry to the world of servers. It is the perfect system for SMEs looking to centralize their IT infrastructure, and offers a great price-performance ratio. Moreover, the TX100 S1&S2 are very silent and energy efficient making it an excellent choice for any office environment. The 85% efficient power supply unit minimizes costs, as well as the environmental impact. The use of data

PRIMERGY TX150 S7 — Data Sheets: http://ts.fujitsu.com/primergy

The PRIMERGY TX150 S7 tower server delivers new levels of energy efficient performance with Intel® Xeon® Quad-Core processor 3200 / 3300 series. This is achieved with a 1066 / 1333 MHz FSB clock rate and with Intel's new state-of-the-art multi-core optimized microarchitecture. A server with this processor proves to be a particularly powerful system that can respond quickly to your requirements.

PRIMERGY TX200 S6 — Data Sheets: http://ts.fujitsu.com/primergy

The PRIMERGY TX200 S6 is ideal for offices or branch infrastructures which need dual processor performance, high expandability and top manageability at the right price. With up to 96GB of RAM and redundancy features, you can make a great start into virtualization. The TX200 S6 also lends itself as a departmental server for business critical applications or as an email or web server. A tower to rack conversion kit protects your investment's lifetime.

	LTO3 data cartridge Fuji no label	LTO-3 data cartridge without label from Fuji, 400 GB native capacity									x	x	x			x	x	x	x	x		x	x	x	x	x		x	x	D:CR-LTO3-FJ-01			18	
	LTO4 data cartridge Fuji no label	LTO-4 data cartridge without label from Fuji, 800 GB native capacity										x	x					x	x	x				x	x	x				D:CR-LTO4-FJ-01			21	
	LTO5 data cartridge Fuji no label	LTO-5 data cartridge without label from Fuji, 1500 GB native capacity											x							x						x				D:CR-LTO5-FJ-01			61	
	LTO3 data cartridge IBM no label	LTO-3 data cartridge without label from IBM, 400 GB native capacity									x	x	x			x	x	x	x	x		x	x	x	x	x		x	x	D:CR-LTO3-IB-01			24	
	LTO4 data cartridge IBM no label	LTO-4 data cartridge without label from IBM, 800 GB native capacity								x			x					x	x	x				x	x	x				D:CR-LTO4-IB-01			25	
	LTO5 data cartridge Maxell no label	LTO-5 data cartridge without label from Maxell, 1500 GB native capacity											x							x						x				D:CR-LTO5-MX-01			69	
	LTO3 data cartridge Sony no label	LTO-3 data cartridge without label from Sony, 400 GB native capacity									x	x	x			x	x	x	x	x		x	x	x	x	x		x	x	D:CR-LTO3-SY-01			20	
	LTO4 data cartridge Sony no label	LTO-4 data cartridge without label from Sony, 800 GB native capacity								x			x					x	x	x				x	x	x				D:CR-LTO4-SY-01			22	
	LTO3 data cartridge Sony single pack	1x LTO-3 data cartridges without label from Sony at a single package , 400 GB native capacity									x	x	x			x	x	x	x	x		x	x	x	x	x		x	x	D:CR-LTO3-SY-EP01			22	
	LTO4 data cartridge Sony single pack	1x LTO-4 data cartridges without label from Sony at a single package , 800 GB native capacity											x							x						x				D:CR-LTO4-SY-EP01			24	
	LTO3 data cartridge with label	LTO-3 data cartridge with label from Fuji, 400 GB native capacity									x	x	x			x	x	x	x	x		x	x	x	x	x		x	x	D:CR-LTO3-FJ-01L			19	
	LTO4 data cartridge Fuji with label	LTO-4 data cartridge with label from Fuji, 800 GB native capacity								x								x						x						D:CR-LTO4-FJ-01L			21	
	LTO5 data cartridge Fuji with label	LTO-5 data cartridge with label from Fuji, 1500 GB native capacity											x							x						x				D:CR-LTO5-FJ-01L			61	
	LTO3 data cartridge IBM with label	LTO-3 data cartridge with label from IBM, 400 GB native capacity									x	x				x	x	x				x	x	x				x	x	D:CR-LTO3-IB-01L			24	
	LTO4 data cartridge IBM with label	LTO-4-- Data cartridges with Label from IBM, Kapazity 800 GByte native								x			x					x	x	x				x	x	x				D:CR-LTO4-IB-01L			26	
	LTO5 data cartridge Maxell with label	LTO-5 data cartridge with label from Maxell, 1500 GB native capacity											x							x						x				D:CR-LTO5-MX-01L			69	
	LTO3 data cartridge Sony with label	LTO-3 data cartridge with label from Sony, 400 GB native capacity									x	x	x			x	x	x	x	x		x	x	x	x	x		x	x	D:CR-LTO3-SY-01L			21	
	LTO4 data cartridge Sony with label	LTO-4-- Data cartridges with Label from Sony, Kapazity 800 GByte native								x			x					x	x	x				x	x	x				D:CR-LTO4-SY-01L			23	
	LTO3 data cart. Sony single pack label	LTO-3 data cartridge with label from Sony, 400 GB native capacity, at single package									x	x	x			x	x	x	x	x		x	x	x	x	x		x	x	D:CR-LTO3-SY-EP01L			21	
	LTO4 data cartrid. Sony single pkg label	1x LTO-4 data cartridges with label from Sony at a single package , 800 GB native capacity											x							x						x				D:CR-LTO4-SY-EP01L			24	
	LTO3 WORM data cartridge Fuji no label	LTO-3 WORM data cartridge without label from Fuji, 400 GB native capacity, WORM means that the data medium can only be written once. It is not possible to delete or overwrite the data									x	x				x	x	x	x	x		x	x	x	x	x		x	x	D:CR-LTO3-FJ-01W			22	
	LTO4 WORM data cartridge Fuji no label	LTO-4 WORM data cartridge without label from Fuji, 800 GB native capacity, WORM means that the data medium can only be written once. It is not possible to delete or overwrite the data								x								x	x	x				x	x	x				D:CR-LTO4-FJ-01W			29	
	LTO3 WORM data cartridge Fuji with label	LTO-3 WORM data cartridge with label from Fuji, 400 GB native capacity, WORM means that the data medium can only be written once. It is not possible to delete or overwrite the data									x	x				x	x	x	x	x		x	x	x	x	x		x	x	D:CR-LTO3-FJ-01WL			23	
	LTO4 WORM data cartridge Fuji with label	LTO-4 WORM data cartridge with label from Fuji, 800 GB native capacity, Attention not for use with SUN / Storage TEK and Quantum Libraries								x								x	x	x				x	x	x				D:CR-LTO4-FJ-01WL			31	
	LTO cleaning label horizontal	label for LTO cleaning cartridges							x	x	x	x			x	x	x	x			x	x	x	x			x	x	x	D:CL-LTO-LAB			1	
	LTO3 barcode label horizontal	label for LTO-3 data cartridges									x	x	x			x	x	x	x	x		x	x	x	x	x		x	x	D:CR-LTO3-LAB			1	
	LTO4 barcode label horizontal	label for LTO-4 data cartridges								x			x					x	x	x				x	x	x				D:CR-LTO4-LAB			1	
	LTO5 WORM data cartridge Fuji no label	LTO-5 WORM data cartridge without label from Fuji, 1500 GB native capacity, Attention not for use with SUN / Storage TEK and Quantum Libraries								x								x	x	x				x	x	x				D:CR-LTO5-FJ-01W			68	
	LTO5 WORM data cartridge Fuji with label	LTO-5 WORM data cartridge with label from Fuji, 1500 GB native capacity, Attention not for use with SUN / Storage TEK and Quantum Libraries								x								x	x	x				x	x	x				D:CR-LTO5-FJ-01WL			68	
	LTO5 barcode label horizontal	label for LTO-5 data cartridges								x			x					x	x	x				x	x	x				D:CR-LTO5-LAB			3	
Cables																																	
	Cable powercord rack, 4m	with Euro socket connector					x							x	x						x	x					x			T26139-Y1968-L10			12	
	Console switch cable 3,5m	cable for keyboard, monitor and mouse					x	x	x	x			x	x	x	x					x	x	x				x	x	x	SNP:SY-F2293L12-P			79	Phased out
Additional Software																																	
	OPENFT-CR (WINDOWS) V8.0	openFT - openFileTransfer; Datamedium CD-ROM; Activation of file encryption, "crypto module"; to openFT V8.0 and V8.1	x	x			x	x	x	x				x	x	x					x	x					x	x		U11081-C157			13	
	OPENFT-FTAM-2 (WINDOWS) V8.0	openFT - openFileTransfer; Right to Use for usage in automated unattended mode, für 1 system with 1 to 4 CPUs	x	x			x	x	x	x				x	x	x					x	x					x	x		U11081-C171			945	
	OPENFT-FTAM-2-U (WINDOWS) V8.0	openFT-FTAM; Update Right to Use for usage in automated unattended mode, für 1 system with 1 to 4 CPUs	x	x			x	x	x	x				x	x	x					x	x					x	x		U11081-C177			476	
	OPENFT-SW-CD (WINDOWS) V8.1	openFT - openFileTransfer; Datamedium CD-ROM for Windows: Server 2003, 2000, XP, NT4, 98 / ME	x	x			x	x	x	x				x	x	x					x	x					x	x		U11081-C183			25

Positioning PRIMERGY Rack Servers

PRIMERGY RX100 S5

PRIMERGY RX100 S5 is a low-cost, easily-implemented platform with a Dual- or Quad-Core Intel® Xeon® UP 3000 sequence processor, integrated SAS or SATA RAID 0, 1 and a memory of up to 8 GB with a 1U space-saving depth of less than 60 cm. Integrated network and management functions make it ideal for data center infrastructure solutions.

PRIMERGY RX200 S5

More for less with regard to data center energy-efficiency. Energy consumption and cooling in data centers is a “burning” issue. The innovative PRIMERGY Cool-safe™ system design of the new RX200 S5 rack server generation provides the right answers.

PRIMERGY RX300 S5

Virtualized environments are the top application for RX300 systems and their new multicore CPUs in the Intel® Xeon® 5500 series. In this situation, several operating systems plus the installed applications have to run simultaneously on one and the same physical hardware. RX300 S5 provides all the platform features required for efficient virtualization.

PRIMERGY RX330 S1

Corporate applications in data center server farms with central deployment and control demand increasing performance. The cost-efficient PRIMERGY RX330 S1 extends the PRIMERGY Rack portfolio and focuses rather on standard than on full feature set in comparison to RX300. RX330 S1 is offering enough local storage capacity to be used as a stand-alone AMD Opteron Quad-Core based application server and for server farms in scale-out environ-ments with medium needs for availability features and virtualization focus. With 2 Dual-Core AMD Opteron™ proc-essors of the 2000 series and up to 32 Gbytes DDR2-667 direct addressable memory the PRIMERGY RX330 S1 matches your business application requirements perfectly and is ready for next generation AMD Quad-Core processors. Therefore the PRIMERGY RX330 S1 with up to 6 hot-plug SAS or SATA hard disks in combination with disk mirroring function, sufficient free PCI slots for heavy I/O requirements, a redundant power supply option, provides you with a budget saving platform.

PRIMERGY RX600 S4

4 Socket Multi-Core Xeon 7400 series rack server
Performance, capacity and stability for your critical applications. The exceptional extendability of the RX600 enables even more consolidation of servers and applications with state-of-the-art virtualization solutions and an excellent “best-inclass“ efficiency.

PRIMECENTER SME

The PRIMECENTER SME rack is the basis for mounting rack configurations with all Fujitsu products, such as servers, operating devices and storage systems. Based on the industry standards DIN 41494 and IEC 297, the PRIMECENTER SME rack can also accommodate other products on the market that comply with these standards.

PRIMERGY RX100 Sx

Data Sheets: http://ts.fujitsu.com/primergy

Business processes and customer bases are becoming more and more comprehensive as they rely on Internet technology. Consequently, data centers are faced with the challenge of making flexible and fast enhancements to their front-end infrastructure services. Increasingly they are looking for a platform solution that has minimum impact on their budgets, yet is easy to deploy and simple to operate. The PRIMERGY RX100 S6 has the appropriate answer.
The technical developments, such as Quad-Core Intel® Xeon® CPU in the 3200/3300 series, integrated SAS or SATA RAID 0, 1 data protection, easy to replace 2 x 3.5-inch hot-plug SATA or SAS hard disks and 8GB RAM - all make the PRIMERGY RX100 S6 ideal for your business applications. It combines the advantages of cost-optimized SATA or SAS hard disk technology in just one height unit with an installation depth of less than 60 cm. This makes it easy to integrate into any rack enclosures. The standard iRMC S2 (integrated Remote Management Controller) offers comprehensive system management based on IPMI 2.0 technology. The integrated network and management functions make it a good choice for infrastructure solutions even if budgets are limited.

PRIMERGY RX300 S5

Data Sheets: http://ts.fujitsu.com/primergy

The consolidation of dedicated servers and the use of efficient virtualized run environments provide measurable benefits and new flexibility regarding IT operations management. Virtual servers can thus be moved to other servers during ongoing operations and enable maintenance work to the hardware platform without any operational interruption. Active virtual servers can be flexibly moved to systems with higher performance for operation during peak-load times. Test systems can be easily converted to productive systems via live migration. Virtualized environments are the main application for RX300 systems and their new multicore CPUs in the Intel® Xeon® 5500 series. In this situation, it is essential to have several operating systems plus the installed applications running simultaneously on one and the same physical hardware. RX300 S5 provides all the platform features required for efficient virtualization:

- High, scalable I/O performances with PCIe Gen2, x4/x8 Turbo mode, up to 7 free PCIe slots - so that disk I/O and network/SAN accesses do not become a bottleneck!
- The generosity of the maximum 144 GB main memory for a high-performance determinable, optimal sizing of the virtual server environment so that the main memory does not become the point of contention for the virtualization software as well as the consolidated applications and the operating systems.
- Top performance with state-of-the-art Dual, Quad or Turbo Quad-Core Intel® Xeon® 5500 series CPUs as well as double I/O performance with PCIe Gen2.0 - so that every virtual system can work at a higher performance level than before.
- The reliability of a premium server system in a space-saving 2 U design so that the cost benefits arising from standardized rack servers and virtual systems do not become a survival risk!

The reliability of the RX300 server platform also leaves nothing to be desired in other application areas, e.g. as database servers or application servers for business-critical processes.

PRIMECENTER — Data Sheets: http://ts.fujitsu.com/primergy

PRIMECENTER - 19-inch rack system
19-inch rack technology for all Fujitsu Siemens rack components (PRIMERGY, SPARC Enterprise, PRIMEPOWER, storage products, BS2000) based on the 19-inch rack industry standard
PRIMECENTER Racks for each purpose. Flexible and stackable 12, 24, 38 and 46 horizontal units and the new PRIMECENTER LC (Liq uid cooled) Rack. The universal scale-up infrastructure prerequisite for SPARC Enterprise, PRIMEPOWER, PRIMEQUEST, PRIMERGY, Fujitsu storage systems and even most of all existing rackable servers. And - that's not all: often necessary components like uninterruptible power supplies, hubs, routers, (console-) switches and a LAN console are easily to be installed here;
this is supported also by the built-in optimal cable management, allowing cost saving serviceability of included components. The installation dimensions of the enclosure make the integration in existing IT environments easy. Thanks to their modular desig n, the racks can be expanded on-site. All four models are offering the same functionality - only with different sizings and different n umbers of horizontal height units behind the secure front door.
New member of the PRIMECENTER family is the new low cost entry PRIMECENTER SME rack, a 42 U rack enclosure capable to host al l Fujitsu Siemens servers as well as 3rd party systems at an extremly low price.

PRIMECENTER SME Rack — Data Sheets: http://ts.fujitsu.com/primergy

Industry Standard Rack
19-inch PRIMECENTER SME in Height of 42 and 24 units
The PRIMECENTER SME rack is the basis for mounting rack configurations with all Fujitsu products, such as servers, operating devices and storage systems. Based on the industry standards DIN 41494 and IEC 297, the PRIMECENTER SME rack can also accommodate other products on the market that comply with these standards.

- **Asymmetrical design for ideal cable routing and best air flow**
- **Capacity 24 or 42 height units, no extra vertical height units**
- **Capacity 24 or 42 are now also available in 1100mm depth, instead of only 1000mm.**
- **Full serviceability of servers thanks to telescopic rails for servers with hot-replace components**
- **All released components for PRIMECENTER rack family can be used as well**
- **All Fujitsu Siemens rack servers and subsystems, as well as 3rd party rack servers (which fits into PRIMECENTER Racks) can be installed under the same conditions and restrictions (specially for servers with higher weight)**
- **No anti tilt protection as standard, rack has to be fixed at the ground floor**
- **Options available on demand at supplier**

Anti tilt protection, roll base, combination lock with numbers, etc

Positioning PRIMERGY Blade Servers

PRIMERGY BX600 S3

The PRIMERGY Blade Ecosystem provide high performance and maximum redundancy with minimum rack space, power consumption and cabling effort. PRIMERGY BX600 S3 can be equiped with up to ten Intel or AMD server blades, and are excellently suited for consolidation projects and for front- and mid-tier applications requiring enterprise-class availability, extreme flexibility and power efficiency. Due to its versatile design the system is ideal suited for smaller and mid market companies.

PRIMERGY BladeFrame BF200

PRIMERGY BladeFrame is the platform to set up an application-independent and service-oriented IT infrastructure. The Processing Area Network (PAN) combines stateless servers (pBlades) with unique virtualization and management software, thus reducing the existing infrastructure complexity and providing a dynamic, high-availability system.
PRIMERGY BladeFrame uses the PAN architecture to manage a pool of computing, storage and network resources which can be dynamically allocated depending on business requirements. The PAN Manager is the central instance for configuring, managing and monitoring both the physical as well as virtual servers. With the PAN Manager a server is no longer a device with a defined configuration, operating system and application, but a software-based definition that can be dynamically assigned as needed. The PAN architecture thus expands the benefits of server virtualization and provides an integrated concept for high-availability (N+1 failover) and disaster recovery. The result is considerable savings in operational and total costs.

PRIMERGY BladeFrame BF400 S2

PRIMERGY SX650

The introduction of this new component for PRIMERGY Blade Servers offers an easy and cost effective opportunity for server consolidation; rack and tower servers with high capacity of local hard disks are operating primarily in the area of small and medium enterprises.
Very often it is essential having local access on large amounts of data; this for example applies to the wide area of Computer Aided Engineering (CAE), where smaller workgroups locally have to work on and create very large models.
Operation within confined environments as file servers as well as for Microsoft Sharepoint Servers and Microsoft SQL Servers are popular usage cases.

PRIMERGY BX900 S1

The PRIMERGY BX900 is a rack unit that has an installed height of 10U and accommodates 1 to 18 server blades and 1 to 6 storage blades. The energy-efficient Intel Nehalem quad-core processors are used in the server blades. Ethernet, Fibre Channel and Infiniband networks are accessed via 8 switch bays. Switches from Cisco, Brocade and Emulex can be used. With its transfer rate of 6.4 Gb/s, the midplane used is the fastest on the market. 100V and 200V power supplies are available. This hardware platform is ideal for server consolidation and virtualization in the datacenter.

PRIMERGY BX920 S1

The PRIMERGY BX920 is a versatile blade server that can be equipted with 2 Intel® Xeon® 5500 series Dual, Quad or Turbo Quad-Core processors and has 9 DDR RAM memory slots. With two hard disk bays for 2.5-inch hot-plug SAS and an integrated SAS RAID 0/1 controller it is an ideal system for any type of workload.

PRIMERGY BX900 S1 — Data Sheets: http://ts.fujitsu.com/primergy

PRIMERGY BX900 - The Dynamic Cube

The PRIMERGY BX900 – Dynamic Cube is a complete Dynamic Server Infrastructure in a single blade cube. This blade server can be dynamically adapted to different IT requirements, thereby reducing costs while increasing your IT agility.
The PRIMERGY BX900 can accommodate up to 18 server blades in a 10U chassis.
Using Cool -safe™, our trademarked cooling concept, combined with power supplies with 90% efficiency and the embedded ServerView Power management software, it ensures truly dynamic power and cooling capabilities that save you money.
Equipped with the latest Intel VT processor technologies, very large memory capacities and state-of-the-art I/O performance, the PRIMERGY BX900 is optimized for any virtualization scenario. Its density and stackability enable flexible scaling to ensure complete investment protection.

PRIMERGY BX600 S3 — Data Sheets: http://ts.fujitsu.com/primergy

The PRIMERGY Blade Ecosystem is a perfect choice for today's datacenter solutions, where the key demand is a reliable and innovative platform for performance and connectivity. It is a highly compact and flexible server system, offering extensive connectivity options, thus allowing the integrated server blades to be used as mid-tier or application servers. Apart from advantages such as high packing density, fault tolerance thanks to high redundancy, and simple and efficient manageability, the PRIMERGY BX600 S3 is distinguished by a future proof approach thanks to the use of the latest generation Intel® Xeon® as well as AMD Opteron™ Dual- and Quad-Core processors.
The PRIMERGY Blade Ecosystem provides a centralized concept for power and cooling with the recognized highest energy-efficiency, excellent RAS functionalities thanks to redundancy and hot swapping of all active components and a flexible I/O concept, even for future oriented technologies. The extension of local hard disk capacity by up to 2x 730 GB (per Server Blade) is possible with the Storage Blades PRIMERGY SX650. The latest new component for the BX600 S3 Ecosystem is the NAS (Network Attached Storage) Blade named PRIMERGY NX650, designed for installation into the BX600 S3 chassis. NX650 consists of a Server Blade BX620 S4 plus one or two connected Storage Blades (SX650). Hereby a NAS Blade capacity of up to 1,460 GB may be achieved.

PRIMERGY BX620 S5 Data Sheets: http://ts.fujitsu.com/primergy

The PRIMERGY BX620 S5 provides optimal functions for Enterprise environments and offers improved features as regards main memory and processors. Up to ten of the dual-socket server blades can be installed in a PRIMERGY BX600 S3 system unit. The BX620 S5 systems offer an efficient Cool-safe™ design with the latest generation of Dual- and Quad-Core Intel® Xeon® 55xx processors as low-voltage, standard and high-performance versions so as to minimize power consumption and reduce cooling requirements in data centers. Due to the support of a high storage capacity with 12 DIMM slots, main memory of up to 96GB and memory speed of 1.333 MHz the BX620 S5 is ideally suited for front and mid-tier applications that require high availability, flexibility and performance efficiency.

PRIMERGY SX650 Data Sheets: http://ts.fujitsu.com/primergy

To extend the internal storage capacity of a PRIMERGY BX620 S4 Dual Socket Server Blade, the PRIMERGY SX650 Storage Blade can be used.
With this product the internal storage capacity of a BX620 S4 can be extended by up to 730 Gbyte. The Storage Blade SX650 occupies one additional Server Blade slot within the PRIMERGY BX600 S3 System Unit, positioned at the right side of an adjacent BX620 S4 Server Blade. The 5 hard disk drives of the SX650 are driven by a high functional SAS/RAID controller with 512 Mbyte cache and BBU. This controller (HBA) installed in the BX620 S4 provides the RAID levels 0, 1, 5 and 6. The connection to the SX650 is realized via one corresponding SAS cable which is dedicated for this configuration pair.

PRIMERGY SX940 S1 — Data Sheets: http://ts.fujitsu.com/primergy

The PRIMERGY SX940 S1 Direct Attached Storage Blade Disk can be used to extend the internal storage capacity of PRIMERGY BX92 x Server Blades.
A maximum of four internal disk drives greatly extends the maximum amount of disk storage of a Server Blade. One Storage Blad e occupies a Blade slot within the PRIMERGY BX900 S1 system unit; it is positioned either on the left or right to an adjacent BX92x Server Blade, or between the two. The 1x 4 or 2x 2 disk drives of one SX940 S1 are driven by 1 or 2 integrated, highly functional SAS/RAID controllers with 512 Mbyte cache and BBU. Each controller provides RAID levels 0, 1, 5 and 6. The connection to each Server Blade is realized via a midp lane link to the high performing PCIe x4 interfaces of each Server Blade's system board.

Positioning SPARC Enterprise Servers

SPARC Enterprise T1000

The entry model T1000 incorporates the UltraSPARC T1 processor. This processor delivers with it s 8 cores up to 32 simultaneous execution threads and 32 GB of memory. The SPARC Enterprise T1000 model also offers 1 free PCIe slots, 4 integrated Gigabit Ethernet interfaces and 1 SATA disk bay.

SPARC Enterprise T5140

SPARC Enterprise T5240

The new Fujitsu SPARC Enterprise server T5440 – like T5140 and T5240 using the new UltraSPARC T2 Plus chip-multithreading (CMT) processor - is setting new standards in the market for network centric computing, energy efficiency and compute density, providing the ideal platform particularly for larger web and applica-tion tier services and for online transaction processing and technical workloads. This new model extends the existing CMT platform to 4-socket multiprocessor systems. Built-in, no-cost virtualization capabilities in the server also enables customers to easily maximize system utilization, helping to lower the cost of delivering new IT services.

SPARC Enterprise T5440

SPARC Enterprise T2000

The entry model T2000 also incorporates the UltraSPARC T1 processor. This processor delivers with it s 8 cores up to 32 simultaneous execution threads and 64 GB of memory. The SPARC Enterprise T2000 also offers 5 free PCI-E slots (3x PCI-E and 2x PCI-X), 4 integrated Gigabit Ethernet interfaces and 4 SAS disk bay.

SPARC Enterprise M3000

The model M3000 is a new 1-socket entry-level to the SPARC64 VII based family. The M3000 server uses the SPARC64 VII quad-core processor with 2.52 GHz and large 5 MB L2 cache. Each of the cores can issue two threads simultaneously. The M3000 model also offers – in a space saving compact 2 RU form factor - up to 32 GB memory (8 DIMM slots), 4 hot-plug disk bays and 4 free PCIe slots in addition to the four onboard GbE network interfaces. RAS features include redundant power supplies and fans, core offlining, extended ECC protection, dynamic cache degradation and the eXtended System Control Facil-ity (XSCF) tool that enables remote and overall hardware monitoring

SPARC Enterprise M4000

The midrange model M4000 scales up to 4 SPARC64VI dual core CPUs or up to 4 SPARC64VII quad core CPUs thus having up to 16 cores, and supports Memory Chipkill and memory mirroring. Furthermore, the model M4000 include built-in features such as Dynamic System Domains, eXtended system boards, and Dynamic Reconfiguration.

SPARC Enterprise M5000

Compared to the model M4000 the M5000 scales up to 8 SPARC64VI dual core or 8 SPARC64VII quad core CPUs thus having up to 32 cores, with the same mission-critical features.

SPARC Enterprise M8000

The high end model SES M8000 scales up to 16 SPARC64VI dual core CPUs or 16 SPARC64VII quad core CPUs thus having up to 64 cores. With symmetric multiprocessing (SMP) scalability from one to 16 processors, memory subsystems as large as 1.024 GB, and high-throughput I/O architectures. Furthermore, the model M8000 includes built-in features such as Dynamic System Domains, eXtended system boards, and Dynamic Reconfiguration.

SPARC Enterprise M9000

Like the model M8000 the SPARC Enterprise Servers M9000 models address the mid-range and high-end processing requirements of mission-critical IT projects. There are two different floorstand models, the SES M9000-32 with 32 sockets and SES M9000-64 with 64 sockets

SPARC Enterprise Server T5120 Data Sheets: http://ts.fujitsu.com/products/unix_servers/sparc_enterprise/

The Entry model T5120 incorporates the UltraSPARC T2 / T2 Plus processor with 1.2 GHz (4 or 8 cores), 1.4 GHz (8 cores), 1.6 GHz (8 cores) and enhanced 4 MB L2 cache. This processor delivers with its 8 cores up to 64 simultaneous execution threads and 128 GB of fully buffered memory (16 DIMM slots). The T5120 model also offers 4 hot-plug SAS disk drive bays and 3 free PCIe slots in addition to the two 10 GbE and four GbE on-chip network interfaces. 1 Floating Point Unit per core and 1 integrated Crypto Unit per core are further improvements.

SPARC Enterprise Server T5140 Data Sheets: http://ts.fujitsu.com/products/unix_servers/sparc_enterprise/

SPARC® Enterprise Model T5140
The model T5140 is the first model in the T5xxx line incor-porating 2 UltraSPARC T2 Plus processors with 1.2 GHz (each with 2x4, 2x6 or 2x8 cores) and 1.4 GHz (2 x 8 cores). Each of the cores can issue up to 8 threads simultaneously, in total up to 128 threads – delivered in a compact 1RU form factor. The T5140 model also offers up to 128 GB memory (16 DIMM slots), 4 hot-plug disk bays and 3 free PCIe slots in addition to the two 10 GbE plus two 1 GbE onboard network inter-faces. The Solaris 10 Operating System and the logical domain feature are preinstalled and provide a highly flexible, efficient and secure application environment. Standard RAS features include redundant power supplies and fans, core offlining, extended ECC protection and the Integrated Lights Out Management (ILOM) tool to enable the server to be integrated and managed within industry-standard management frameworks.

The model T5440 is the first model in the T5xxx line incorporating up to 4 UltraSPARC T2 Plus processors with 1.2 GHz, 1.4 GHz or 1.6 GHz (each with 8 cores enabled). Each of the cores can issue up to 8 threads simultaneously, in total up to 256 threads. The T5440 model also offers – in a compact 4 RU form factor - up to 512 GB memory (64 DIMM slots), 4 hot-plug disk bays and 8 free PCIe slots in addition to the two 10 GbE plus two 1 GbE onboard network interfaces. The Solaris 10 Operating System and the logical domain feature are preinstalled and provide a highly flexible, efficient and secure application environment. RAS features include redundant power supplies, fans, core offlining, extended ECC protection and the Integrated Lights Out Management (ILOM) tool to enable the server to be integrated and managed within industry-standard man-agement frameworks.

SPARC Enterprise Server M3000 Data Sheets: http://ts.fujitsu.com/products/unix_servers/sparc_enterprise/

The new Fujitsu SPARC Enterprise Server M3000 expands the SPARC Enterprise M-model family to the entry level. The SPARC Enterprise Server M3000 is powered by a single quad-core SPARC64 VII processor and inherits the mission critical features of all other SPARC64 based SPARC Enterprise M-models, delivering mainframe-like reliability, availability and scalability in an ultra-dense system at an entry-level price. This new model is an ideal platform for enterprise applications including databases, ERP and CRM. With its Simultaneous Multi-Threading (SMT) chip architecture the SPARC Enterprise M3000 server delivers excellent single core performance. And with the latest I/O interfaces, PCI-Express and SAS system architecture the system minimizes latency and provides maximum throughput, whether running compute, I/O, or memory intensive workloads. The SPARC Enterprise M3000 server provides a perfect balance between mission-critical features, compact form factor and best power efficiency.

SPARC Enterprise Server M4000 Data Sheets: http://ts.fujitsu.com/products/unix_servers/sparc_enterprise/

Cost cutting, robustness and flexibility are the requirements now demanded of rack servers for medium-sized and large enterprises.
The new Fujitsu SPARC Enterprise M4000 and M5000 systems fulfill these requirements. The world's most widespread UNIX operating system, Solaris™, is used. The central Fujitsu Enterprise ServerView Suite management functions ensure a reduction in the need to rectify errors and the costs this entails, as well as remote access anytime, anywhere. Thanks to the servers' unique flexibility in adapting to changing priorities, excess and unused resources are a thing of the past. IT organizations thus have more powerful and resilient infrastructures, optimized hardware utilization and consequently lower costs and risk. The SPARC Enterprise M4000 and M5000 systems are therefore the preferred UNIX platforms for a medium-sized company.

SPARC Enterprise M4000
The rack-based SPARC Enterprise server M4000 is a highly reliable, enterprise-grade, vertically-scalable system that addresses the mid-range processing requirements of mission-critical IT projects. The mid-range model SE M4000 scales up to 4 x SPARC64 VI Dual-Core CPUs or 4 x SPARC64 VII Quad-Core CPUs, thus having up to 16 cores, and supports extended ECC protection and memory mirroring. Furthermore, the model SE M4000 includes built-in features such as Dynamic System Domains, extended system boards, and Dynamic Reconfiguration, bringing mainframe-class sophisticated resource control to an open systems computing platform. Massive computing power, a resilient system architecture, flexible resource control features, and the advanced capabilities of the Solaris 10 OE combine in SPARC® Enterprise server M4000 to provide organizations a best-in-class midrange enterprise platform.

SPARC Enterprise Server M8000 Data Sheets: http://ts.fujitsu.com/products/unix_servers/sparc_enterprise/

High availability, performance, robustness and flexibility are now demanded more than ever at data centers. Yet they also require the appropriate solution. Servers with the powerful generation of SPARC64 processor technology in conjunction with Solaris 10 are now available to meet these standards.
The SPARC64 based models of the high-end SPARC Enterprise M8000 and M9000 systems are persuasive platforms. They have been developed to deliver maximum availability in conjunction with the very best performance and a broad range of applications. Your IT business processes are always available at any time with the Fujitsu SPARC Enterprise family. This sophisticated SPARC64 -based server generation sets new standards in terms of performance, quality and functionality. The world's most used UNIX operating system, Solaris™, is deployed. Thanks to the servers' unique flexibility in adapting to changing priorities, unused and unsuitable resources are a thing of the past. IT organizations thus have more powerful and resilient infrastructures, optimized hardware utilization and consequently lower costs.

SPARC Enterprise M8000
The SPARC Enterprise Server M8000 is a highly reliable, enterprise-grade, vertically-scalable systems that addresses the high-end processing requirements of mission-critical IT projects. The high-end model SPARC Enterprise M8000 scales up to 16 x SPARC64 VI Dual-Core CPUs or 16 x SPARC64 VII Quad-Core CPUs, thus having up to 64 cores. With symmetric multiprocessing (SMP) scalability from two to 16 processors, memory subsystems as large as 1.024 GB, and high-throughput I/O architectures, SPARC Enterprise servers easily perform the heavy lifting required by workloads such as global enterprise resource planning (ERP), intensive data mining, and complex database transactions. Furthermore, high-end SPARC Enterprise servers include built-in features such as Dynamic System Domains, eXtended system boards, and Dynamic Reconfiguration, bringing mainframe-class sophisticated resource control to an open systems compute platform.

SPARC Enterprise Server M9000 Data Sheets: http://ts.fujitsu.com/products/unix_servers/sparc_enterprise/

High availability, performance, robustness and flexibility are now demanded more than ever at data centers. Yet they also require the appropriate solution. Servers with the powerful generation of SPARC64 processor technology in conjunction with Solaris 10 are now available to meet these standards.
The SPARC64 based models of the high-end SPARC Enterprise M8000 and M9000 systems are persuasive platforms. They have been developed to deliver maximum availability in conjunction with the very best performance and a broad range of applications. Your IT business processes are always available at any time with the Fujitsu SPARC Enterprise family. This sophisticated SPARC64 -based server generation sets new standards in terms of performance, quality and functionality. The world's most used UNIX operating system, Solaris™, is deployed. Thanks to the servers' unique flexibility in adapting to changing priorities, unused and unsuitable resources are a thing of the past. IT organizations thus have more powerful and resilient infrastructures, optimized hardware utilization and consequently lower costs.

SPARC Enterprise M9000
The SPARC Enterprise Servers M9000 models are highly reliable, enterprise-grade, vertically-scalable systems that address the high-end processing requirements of mission-critical IT projects. There are two different models, the SPARC Enterprise M9000-32 with up to 32 CPUs and SPARC Enterprise M9000-64 with expansion cabinet for up to 64 CPUs (up to 256 cores with Quad-Core CPUs). With symmetric multiprocessing (SMP) scalability from two to 64 processors, memory subsystems as large as 4 TB, and high-throughput I/O architectures, SPARC Enterprise servers easily perform the heavy lifting required by workloads such as global enterprise resource planning (ERP), intensive data mining, and complex database transactions. Furthermore, high-end SPARC Enterprise servers include built-in features such as Dynamic System Domains, eXtended system boards, and Dynamic Reconfiguration, bringing mainframe-class sophisticated resource control to an open systems compute platform.

Positioning PRIMEQUEST

PRIMEQUEST

PRIMEQUEST 580A server is Intel® 64-bit architecture (IA64) based high-end server for use in mission critical environments. They enable customers to realize the economic benefits and flexibility of Linux and Windows industry standards while preserving all the attributes for mission critical datacenter services.
Combining the power of 64-bit Intel® Itanium® processors, the standard specifications of Microsoft® Windows and Linux operating systems and the wealth of market solutions with innovative fault immune system architecture for highest availability and business continuity, PRIMEQUEST server provide a new operational efficiency for business critical computing with truly open standards.
They hereby meet the demands of customers to expand the reach of open industry standards to include mission critical enterprise operations.

PRIMEQUEST 580A — Data Sheets: http://ts.fujitsu.com/PRIMEQUEST

The new PRIMEQUEST 580A is best choice for enterprises that are looking for a mission critical Intel® Itanium® based Linux or Windows platform to provide highest availability, robust performance and enhanced flexibility plus optimum resource usage.
Typical application areas for PRIMEQUEST 580A include large to largest-scale database systems and online transaction processing (OLTP) environments that require a fail-safe mission critical platform with flexibility for future growth.
PRIMEQUEST 580A offers flexible and scalable configuration capabilities for up to 32 Dual-Core processors and belonging I/O resources in a space-saving system cabinet. Automatic reconfiguration and flexible partitioning with up to 16 fail-safe, hardware isolated partitions using eXtended PARtitioning (XPAR) provide optimum resource usage with multiple OS instances.
The advanced system architecture incorporates two innovative key technologies that provide highest availability in a single system:
Mirror Mode and Flexible I/O (FIO).
With Mirror Mode, crossbar interconnects and memory modules can operate in duplex mode to isolate faults without causing a system halt, i.e. not influencing the IT production. FIO allows on demand reallocation of I/O resources to specific processing resources, which enables I/O to match throughput and performance requirements.
Enhanced performance (compared to the predecessors) and reliability of the new Dual-Core Intel® Itanium® 9100 series, large main memory capacities up to 2 Tbyte, high speed crossbar interconnect (up to 170 Gbyte/s throughput) and low memory latencies satisfy huge system and application bandwidth demands.

Options matrix										
Processor										
	PQ Extended Mirror Mode Option for PQ580	This Option is necessary to enable Extended Mirror Mode for PQ580.		x		D:00-MC-57MR21			40336	
	PQ580A System Board 667MHz	SB with 4 sockets for Itanium® Montvale processor, For processor upgrade see "Notes on SB", CPU sockets and Power Pod sockets , (NO mix of different processor generations & frequencies) , 32 slots for memory DIMM => 8 memory modules, Max. 8 SB in PQ580A		x		D:00-MC-97SB11			14286	
	PQ IO-Unit (IOU) for PQ580A	4x PCI-X slots (short length), - 2x 133MHz, 2x 100MHz, No PCI-X cassettes included, KVM interface on BMM, 2x SCSI Controller (LSI53C1030, dual U320), 4x HDD, 4x 1GBit LAN connected to the GSWB / GTHB, •8x 100Mbit LAN via 2 BMC's for private- and management LAN, •4x PCI-Express lanes for PCI-Unit connection		x		D:00-MC-97UX11			10084	
	System Board	"For 32GB memory (8GB DIMM x4) use., - CPU not mounted. (max 2 CPUs), - Memory module not mounted. (max 8 memory modules), - 4x USB and 1x VGA ports included on one system board. , , At least one CPU and memory module must be ordered with one system board."	x			MC-3HSB21			13277	
	I/O Unit	- Max. two I/O Units can be mounted in one server., At least one I/O unit must be mounted., - 8x LAN ports for one I/O unit, - 2x SAS ports for one I/O unit, - Max. 8x PCI Express cards can be mounted, - One PCI Box can be connected for one I/O Unit, - Two SAS Disk unit can be connected to one I/O unit	x			MC-3HUX11			12101	
	MMB	One Management Board mounted as standard, , Max. two Management Board can be mounted., - Adding one board makes Management Board for redundandancy., - 4x LAN ports mounted on one Management Board., (2x for user, 1x for REMCS, 1x for maintenance)	x			MC-5HMM11			3025	
Communication/Network										
	PQ Gigabit Switch Board with10GBps ports	Installation isn't mandatory., Max. 2 x GSWB are possible., Each GSWB provides the following LAN connections :, 16 internal connections to the GBE ports of the LIOUs, 8 external ports 1000BASE-T, Switch is Cisco compatible		x		D:00-MC-77GX11			18487

Positioning Storage Disk Systems — Data Sheets: http://ts.fujitsu.com/storage

FibreCAT SX80 iSCSI

The FibreCAT SX80 iSCSI is the iSCSI model of the FibreCAT SX family .

ETERNUS DX60

The ETERNUS DX60 offers quality and reliability. The machine supports all relevant RAID levels. (0, 1, 5, 1+0, 5+0 and 6).

ETERNUS DX80

The ETERNUS DX80 offers quality and reliability.
The machine supports all relevant RAID levels. (0, 1, 5, 1+0, 5+0 and 6).

FibreCAT SX40

FibreCAT SX40 extends storage capacity and eliminates bottlenecks

FibreCAT SX60

The FibreCAT SX60 is the perfect system for small and medium sized companies. It offers large storage capacity with 1-2 enclosures.

FibreCAT SX80

The FibreCAT SX80 is the perfect storage system for the data center. The FibreCAT SX80 offers enterprise class reliability as well as snapshot functionality.

Positioning Storage Disk Systems — Data Sheets: http://ts.fujitsu.com/storage

FibreCAT SX88

The FibreCAT SX88 is the premium model of the FibreCAT SX storage series. The FibreCAT SX88 complements the successful FibreCAT SX80 technology but provides even more performance and is thus up to 50% faster.

FibreCAT SX100

The FibreCAT SX 100 – the enterprise model of the FibreCAT SX Family

FibreCAT CX4

FibreCAT CX4 for highest flexibility and scalability with UltraFlex™ - Storage goes future.

CentricStor FS

CentricStor FS (File Services) – Consolidated file services with unprecedented speed and reliability

FibreCAT SX40 — Data Sheets: http://ts.fujitsu.com/storage

The FibreCAT SX40 SAS storage subsystem is a passive, directly connectable system for data storage or expanding the hard disk capacity of connected PRIMERGY servers. With a height of 2U, the FibreCAT SX40 subsystem meets the requirements for a compact design with high hard disk capacity in 19-inch rack infrastructures.Up to 12 SAS hard disks offer a total maximum capacity of 3.6 Tbytes in an external housing. Cascading of up to 3 FibreCAT SX40s via the second SAS x4 link permits expansion to a maximum of 10.8 Tbytes of external hard disk capacity.
In the FibreCAT SX40 storage subsystem, the active components – hot-plug hard disks and hot-plug power supply modules – can be replaced while the server is running. The redundant hot-plug power supply units can be connected with phase redundancy via separate power lines. Optimum and secure cooling of the hard disks is ensured by 2 independent fans in each power supply unit.

FibreCAT CX4 — Data Sheets: http://ts.fujitsu.com/storage

The FibreCAT CX4 series meets a full range of needs from departmental applications to enterprise-class business-critical systems by leveraging innovative technologies like Flash drives, UltraFlex™ technology and Virtual Provisioning. The unique combination of flexible, scalable hardware design and advanced software capabilities helps to cut costs and minimize energy use whilst optimizing availability and virtualization.
The FibreCAT CX4 series includes the models 120, 240, 480 and 960 which reflects the number of maximum drives. All models are delivered pre-configured with Fibre Channel and iSCSI connectivity allowing customers to choose the best connectivity for their applications. The FibreCAT CX4 series, optimized for virtualized environments, uniquely combines highest availability with ease of use and energy efficient technology at lowest TCO.

ETERNUS DX60 — Data Sheets: http://ts.fujitsu.com/storage

ETERNUS – Reliable Storage Solutions for your Dynamic Infrastructures

The ETERNUS DX60 offers quality and reliability. The machine supports all relevant RAID levels (0, 1, 5, 1+0, 5+0 and 6) and features like RAID migration to migrate data dynamically between disks or Data Block Guard to ensure data integrity. Instead of traditional batteries the CacheProtector feature uses capacitors to write the content of the RAID controller cache to a flash memory in case of power failure.
The ETERNUS DX60 systems are equipped with 4 Gigabit per second fibre channel technology. The standard machine comes with 8 snapshots and can be extended to 512 snapshots.
The very affordable ETERNUS DX60 systems are easy to operate with the pre-installed graphical user interface.

FibreCAT SX100 — Data Sheets: http://ts.fujitsu.com/storage

The FibreCAT SX 100 is the enterprise model of the FibreCAT SX Family. The FibreCAT SX offers twice as much: First of all more than double the expansion volume. Thus it can support up to 108 hard drives in 9 shelves and offers a storage capacity of up to 108 TB. Secondly, the FibreCAT SX 100 is twice as fast as the FibreCAT SX80 due to its improved controller technology. Thirdly it offers the possibility of using 4 ports per controller, as opposed to the 2 previously offered. Thanks to this, 4 servers instead of 2 can now be directly and redundantly connected to the machine. Furthermore, the FibreCAT SX100 now supports 244 Snapshots and is equipped for further enterprise functionalities such as replication (replication ready).

Tape Drive Extension																																																	
	SCSDK-LTO-I-IBMDtv QBKMPCNwk-8GB UPG	Quantum Scalar i3000 -8GB IBMLTO-5 Tape Drive Module, QBKM6installed, -8GB Storage Networking, field-upgrade, Includes Scalar i3000 Fibre Channel I/O Blade when required (every fourth tape drive added). Includes Q-BKMSoftware and license key. QBKMdrives must be in a separate partition from non-Q-BKMdrives. QBKMIntegration Service is also required to install and configure the QBKM application. Wrarranty/service level of QBKM must match the service length and level of the library. Not compatible with Scalar Key Manager.																																													x

Positioning Storage Tape Systems

LTO Desktop

Available with one LTO-1 or LTO-2 drive for rapid data transfer. Because time is of the essence.

SL500

The rack-mounted library scales from 30 to 575 LTO cartridge slots and accommodates up to 18 tape drives.

SCALAR i500

Midrange Tape Library with modular design provides industry-leading scalability, performance, and reliability.

ETERNUS LT20

The ETERNUS LT20 is an ultra compact tape library with up to 8 media slots and one half geight LTO drives on one height unit for small and midsized companies

ETERNUS LT40

The ETERNUS LT40 is a compact and extremely reliable tape automation system for small and medium-sized enterprises.

ETERNUS LT60

The ETERNUS LT60 is a compact and extremely reliable tape automation system for small and medium-sized enterprises.

FibreCAT TXF

The innovative FibreCAT/ETERNUS storage subsystems from Fujitsu offer high quality, availability and are user-friendly. ETERNUS backup systems make data backup easy, reliable and low-priced. A large range of supported backup devices with SCSI, SAS or USB interfaces make this storage subsystem an individual, flexible solution for use in rack systems and high-availability environments. The ETERNUS backup systems meet the increased storage capacity requirements regarding archiving and data backup in data centers and can be used wherever medium to large data quantities have to be saved. FibreCAT storage subsystems from Fujitsu ensure that the basis of your company is retained.

ETERNUS CS Virtual Tape Appliance — Data Sheets: http://ts.fujitsu.com/ETERNUS_CS

ETERNUS CS is a powerful virtual tape solution that provides fully integrated Disk to Disk to Tape (D2D2T) backup. It offers data protection for all types of enterprise data. ETERNUS CS enables customers to consolidate their tape infrastructures, exploiting the best of both disk and tape.

ETERNUS CS uses a powerful Grid Architecture (CGA) to provide unmatched scalability and unmatched disaster tolerance. Unlike Virtual Tape Libraries (VTL) that just emulates tape, ETERNUS CS offers True Tape Virtualization (TTV). This provides unmatched connectivity and unmatched TCO (Total Cost of Ownership) reduction. This is the reason why CentricStor is the only virtual tape solution that makes tape fit for ILM (Information Lifecycle Management).

For pricing and configuration information please contact your Fujitsu Technology Solutions sales contact.

LTO-4SAS Desktop

Data Sheets: http://ts.fujitsu.com/storage

The performance and reliability of the LTO tape drive meet current and future requirements for a state-of-the-art backup drive. The successful path taken in the tape storage sector is continued with the fourth generation of the Linear Tape Open (LTO) standardized drive technology.
The drive operates at a speed of 80 Mbyte/s and processes ½-inch cartridges with a storage capacity of 800 GB (native capacity). A high level of data integrity is guaranteed thanks to magneto-resistive (MR) heads, optimal tape guidance, and a redundantly configured servo system. Specially developed control elements and an easy-to-use menu system guarantee problem-free operation of the MTC drive. An easy-to-read LCD display continuously shows the status of the drive and media during operation
The desktop tape drive is therefore an entry-level component into the LTO-4 technology and is particularly suitable for backup and time-critical applications that require rapid data transfer. The tape drive can be attached to various open system servers via the SAS interface.

ETERNUS LT20 — Data Sheets: http://ts.fujitsu.com/storage

ETERNUS LT20 – Green Efficiency

The ETERNUS LT20 from Fujitsu is optimized for low power consumption in operation and enables the cost-effective entry into the ETERNUS series for small and midsized companies.
It is based on proven LTO technology, which provides large capacity, high speed and very small media costs. The ETERNUS LT20 is the world's first library with LTO-4 Fibre Channel half height drives. Depending on your individual requirements you can either order it with an LTO-3 or LTO-4 half height drive which can be can be connected via SAS (Serial Attached SCSI) or Fibre Channel interface to the server. By means they use the most current, future-proof standard for high data transfer rates and trouble-free transmission.
It is only one Rack Unit high whereas it offers up to 12.8 TB compressed storage capacity when equipping it with eight LTO-4 cartridges.
The ETERNUS LT20 is very reliable, easy to use and very affordable. Moreover one year onsite service is included.

FibreCAT TXF

Data Sheets: http://ts.fujitsu.com/storage

The FibreCAT TXF storage subsystem consolidates data backup in 19-inch rack environments so that the servers do not have to have their own backup drives. The FibreCAT TXF storage subsystem and its 3 height unit 19“ rack housing offer space for backup drives that are directly connected to the servers and which can be installed in PRIMECENTER racks or in standard racks from other manufacturers. The rack installation can be with optional rack mount kits for fixed installation or with full extraction.
There are three basic versions with SCSI, SAS or USB technology available. Each I/O module has 4 ports to connect up to 4 servers as well as a power management for remote switch on/off of individual drives or the entire system.

Upgrades																																							
	SCi2000 IPv6 Compact Flash Upgrade Kit	Quantum Scalar i2000 IPv6 Compact Flash Upgrade Kit, This kit is only needed for those few customers that are connecting a Scalar i2000 to an IPv6 network. This kit includes a standard Scalar i2000 Compact Flash card with special code that allows a Scalar i2000 to connect to an IPv6 network. Flash must be installed at point of sale in the factory or by Quantum personnel as a post-sale upgrade. If customers want to upgrade firmware, they should open a Service Request and the upgrade will be scheduled with Quantum's field service group. Installation charges may apply.																												x			x	Q:LSC2K-ACFU-006A			2	
	SCi2000 FC I/O Blade, 4GB UPG	Quantum Scalar i2000 Fibre Channel I/O Blade, 4GB, Includes two host/SAN Fibre Channel ports and four tape drive Fibre Channel ports, all with LC connectors. Order to convert one to four native Fibre Channel drives to Storage Networking. If the Control Module (CM) or Expansion Module (EM) containing the drives being converted does not already include other Storage Networking drives (i.e., the conversion is the first time the cabinet will be configured with Storage Networking), then the Scalar i20000 Native Fibre Channel to Storage Networking Upgrade Kit (LSC2K-USNC-001A) is also required.																												x			x	Q:LSC2K-AFCC-001A			9720

	SCi2000 Power Supply	Quantum Scalar i2000 Power Supply Module, An additional power supply can be connected to two supply networks, thus increasing reliability., , Order one for Control Module (base system) plus one for each Expansion Module that is configured with tape drives.																												x			x		Q:LSC2K-ARPS-001E			4424	
	SCi2000 Multi-media Picker UPG Kit,UPG	"Quantum Scalar i2000 Multi-media Picker Upgrade Kit, field upgrade (EMEA), Required when adding DLT media to an installed library initially ordered with LTO only. Not required when ordering a new library in a multi-media configuration nor when adding LTO media to an installed library initially ordered with DLT. The Scalar i2000 Partitioning Option must be purchased with multi-media libraries."																												x			x		Q:LSC2K-UMMP-001E			3403	
	SCi2000 FC Networking Conversion Kit,UPG	Quantum Scalar i2000 Native Fibre Channel to Storage Networking Conversion Kit, field upgrade, Includes network chassis fan and Control Management Blade (CMB). One kit is required when ordering a Fibre Channel I/O Blade to convert existing native Fibre Channel drives to Storage Networking if the Control Module (CM) or Expansion Module (EM) containing the drives being converted does not already contain Storage Networking drives. Maximum one kit per CM or EM being converted to Storage Networking for the first time.																												x			x		Q:LSC2K-USNC-001A			6583

Switches and routers
The fibre channel switch is the key component of a SAN. It delivers high performance and throughput for the network. The Routers are the connection from SCSI tape devices to a Storage Area Network.

Fibre channel switches

Fibre channel switches
The SilkWorm family stand for high performance SAN concepts and high availability. 4 Gbit/s fibre channel is the latest and currently fastest technology for connecting the servers and storage devices. The 8-, 16-, 32- and 128-port, auto-sensing fibre channel switches significantly increases performance and functionality for Storage Area Networks (SANs).

FibreChannel Switch Brocade 300

The Brocade 300 FibreChannel Switch with 8Gbit/s technology and 8, 16, or 24 ports.

FibreChannel Switch Brocade 5100

The Brocade 5100 FibreChannel Switch with 8Gbit/s technology and 24, 32, or 40 ports.

FibreChannel Switch Brocade 5300

The Brocade 5300 FibreChannel Switch with 8Gbit/s technology and 48, 64, or 80 ports.

Fibre channel routers

Fibre channel routers
The ideal product for connecting tape libraries to a fibre channel network. Supports a fast and secure backup via a Storage Area Network

FiberChannel Switch Brocade 300 — Data Sheets: http://ts.fujitsu.com/storage

The Brocade 300 is an 8 Gb/s Fibre Channel switch and provides the flexible building blocks customers need for high performance easily manageable storage area networks in large or fast growing server and virtual server environments. With a flexible architecture that supports 1, 2, 4 and 8Gbit/sec technology with 8, 16, or 24 ports, the Brocade 300 provides a highly available, lossless networking between application and data as well as between server and storage networks.

	FC-Switch BRCD 300 8/24 Port WT ZO,EB	Fibre Channel switch with 24 ports, 8 active ports, Web Tools, Zoning,, upgrade to 16 or 24 ports by activating the port license, 1 year on site warranty incl right to use software updates, Power Pack	D:FCSW-300E			5184	

FiberChannel Switch Brocade 5100 — Data Sheets: http://ts.fujitsu.com/storage

The Brocade 5100 FibreChannel Switch is ideal for organizations requiring a flexible solution that will meet rapidly evolving storage requirements, either as a building-block switch for a small SAN or as a high-performance edge switch in larger core-to-edge SAN configurations. With a flexible architecture that supports 1, 2, 4 and 8 Gbit/sec technology with 24, 32, or 40 ports, the Brocade 5100 provides an affordable high-port-count, single-domain solution.

Uninterrruptable Power Supply (UPS)
UPS systemes protect IT equipment against system drop outs triggered by power loss or bad power quality. They provide energy over a limited period of time (autonomy time) depending on the amount of battery capacity. Online technology provides highest quality power protection (VFI-SS-111) .

Masterguard ONLINE UPS
This UPS family provides Online functionality covering power requirements ranging from 0,5kW to several hundred kW. All devices use the same software which is available both for INTEL™ and SUN Sparc™ environments. Beside the standard software there is a high availability software which allows the safeguard of distributed solutions or large UPS farms.

UPS/Power supply (Continued)										
	UPS Man Software V31 MGUA BASIC 3-1-1-0	UPS management software MGUA BASIS 3-1-1-25, This license comes with the UPS. Up to three servers can be connected to a UPS (these servers do not work in a cluster) and are notified individually by the UPS if there is imminent danger of a power failure. The software can manage a UPS. The three servers can notify a total of up to 25 clients via LAN of the impending power failure and initiate shutdown. If a server fails or the client cannot be reached, the client learns nothing about the power failure.			x	D:UPSSW-BASISV31MG			246	
	UPS Man SW Option CLUSTER 2-3-5-50	This package can be ordered optionally and addresses a dual-node cluster application. The number of cluster nodes can be increased by adding further licenses in grids of 2 (a quad-node cluster requires 2 licenses). The license can manage up to 3 groups, each with up to 5 UPS systems. The package is aimed at distributed cluster applications in which a pool of parallel UPSs with up to 5 UPSs each is intended for servers, infrastructure (data transport) and consolidated storage hardware. The servers involved can address a total of 50 clients.			x	D:UPSSW-CLUSTER-MG			714	
	UPS Man SW Option ENTERPRISE 25-3-5-50	This package can be ordered optionally and is designed for power solutions with a powerful server that can be split into virtual machines (example: PRIMEPOWER). Configurations such as in the cluster version can be created for the distributed environment used by the virtual server.			x	D:UPSSW-ENTERPR-MG			966	
	UPS Man SW Option SERVER GRID 25-1-1-50	This package can be ordered optionally and addresses completely fitted blade servers. The power quality information must be passed to many systems that are accommodated in a chassis and supplied by a UPS. The UPSs can be managed from any desired server of the blade, with the result that there is also power management when individual blades are inactive or have failed.			x	D:UPSSW-GRID-MG			504	
	UPS ManSW V31OptionSERVER GRID 25-1-1-50	This package can be ordered optionally and addresses completely fitted blade servers. The power quality information must be passed to many systems that are accommodated in a chassis and supplied by a UPS. The UPSs can be managed from any desired server of the blade, with the result that there is also power management when individual blades are inactive or have failed.			x	D:UPSSW-GRID-V31MG			504	
	APC-UPS WEB Management Adapter	10 / 100 Mbit autosence AP9630 for APC-USV, use one smart slot	x	x		S26113-F80-L30			211	
	APC Online UPS RMK D/P/3rd P Racks	1 pair sliding rails, depth variable, for D/P/3rd P racks, for assembly of a floorstand APC online UPS into a rack, incl. adapter angle 150 kg	x			S26361-F2845-L1			91
